

- You can follow along with the video using this notebook: [Getting Started with SFrames.ipynb](#)
- You will also need this dataset: [people-example.csv](#)
- Save all these files in the same directory (where you are calling iPython notebook from), and open the notebook using IPython Notebook. **Not sure where to save the files? See [this guide](#).**
- Note that this is the same notebook used in the readings for this module.
